Also request him to inaugurate the 3 days residential training of Block Facilitators at Dibrugarh from 10-12 March, 2016	01	8/03/2016	
3	Visit to District NHM Office of Dibrugarh	Met DCM and DPM of Dibrugarh and invited them to our zonal level training for block facilitators organised at Dibrugarh.	01	8/03/2016	I met DPM&DCM and apprised them to give a basic presentation on various schemes, works of NHM.
4	Zonal level Training for Block Facilitators at Dibrugarh	3 days residential Training of Block Facilitators at Dibrugarh	1	10/03/2016 11/03/2016 12/03/2016	The training is inaugurated by Joint Director Health Dibrugarh and attended by DCM of Sibsagar and Dibrugarh district. BCMs of 18 Blocks of the three districts also attended the training. It helps us to make a bridge between our NGO team and NHM

					workers, which further help us to work unitedly for the society.
5	Familiarisation visit to District/Block office by the Block facilitators of Dibrugarh District	All the block facilitator of the six block visited to their respective block PHC and introduced with the BPM, BCM, ANM, Medical Officer.	2		They had Introduction session with BPM, BCM& ANM and ASHA Supervisors.
6	Familiarisation and general visit to SC/CHC/TGH	All the block facilitators of the Dibrugarh district visited to various sub Centre/CHC/TGH of their respective block and introduced with ASHA,ANM,GNM etc.	Total 17 visits were done.		Met ASHA/GNM/ANM and discussed various issues regarding MMR/IMR, various health problems and also attended meetings.
7	Visit to AWC/VHSNC	The block facilitators visited in their respective blocks.	Total 81 visited till 31st March 2016		As a district coordinator I accompanied the block facilitators in their visit to some AWC/SC/VHSNC and discussed with the village people, ANM/ASHA regarding the various health problems and the present status of VHSNC. From our visit we basically found that the VHSNC are not in a good position and lots of hard work to be needed to strengthen them.
8	Visit to other Sub Centre/AWC	Some of the block facilitators also visited others block and accompanied them to their field.	2	21/03/2016	Block facilitator of Naharoni block, district coordinator of Dibrugarh visited to Lahowal block and accompanied that particular block's block facilitator. They attended VHSNC meeting and discussed on VHSNC status of the block.
9	Attended VHND	Two block facilitator attended VHND.	2		The VHND were organized by

					seponchakalia MPHC and Nij tengakhat AWC. Both the BFs explain the importance of hand washing and cleanliness in front of the peoples.
10	Attended ASHA training	Block facilitator of tengakhat and khowang attended one ASHA training Programme respectively.	2		One training was organized by khowang PHC and other was by tengakhat PHC.
11	Attended Block level convergence meeting	Block facilitator of tengakhat block had attended a block level convergence meeting.	1		The convergence meeting was organized by ABITA and UNICEF.

Summary of experiences and difficulties

District Coordinator, Dibrugarh

As a district coordinator of Dibrugarh district I have joined on 20th February 2016. Before my joining I have only a little knowledge about NHM so I was in a confused situation; whether I can perform the challenging role of District Coordinator or not. But after completing the 3 days training provided by NHM/VHAA/AGCA I have learn many important concepts which help me to think that, I can.

After taking the responsibility I had an informal meeting with the Block Facilitators of Dibrugarh District which helped us to introduced with each other and discuss about our work responsibilities. The team of Dibrugarh district is young, energetic and have willpower to do hard work. I have visited the Block PHC, District NHM office and other AWC/SC etc. and discussed about various health issues, problems etc. From my discussion with DCM of Dibrugarh I was able to understand that Naharoni Block of Dibrugarh is one of the most sensitive one. When I visited that particular block and discussed with ANM/ASHA I found that Naharoni is really a sensitive one.

In the field level the block facilitators and I have faced many problems. The main problem is the worst transportation facility.in some part of the villages is as remote as there is no road. Besides that some areas are covered by jungle where no public transportation facility available. Recently I have visited some area under khawang block where prior to our visit Tiger attacked 8 local people and they were hospitalized. So on that they we have visited that particular area with a deep fear in mind.

Although there is various problems in the field level one thing minimize all the problems i.e. the well behavior, well treat of the village people. When we visited the villages the people served us with a cup of tea. They treat us very well.

So, this is my personal experience getting from the field within this particular period. Here I attached some photographs of my field visits---
